

K-Love radio station is constantly on in both our radios in our cars & at home & provides continued listening pleasure for the both of us. If K-Love is displaced in our area, there would be no other worthwhile station to listen to. We both believe that K-Love radio station should remain in our area to continue to give its listeners an ongoing & worthwhile lift to our everyday lives with a wide range of listening pleasure, news & information along with timely weather forecasts in our immediate area. Thank you for your attention to this matter. Sincerely, Edward & Sharon Greene
